

E-SAFE – CONCRETE CLEANER

E-SAFE is the first non-corrosive cleaning compound designed specifically to remove concrete build-up from concrete hauling, handling and finishing equipment.

E-SAFE will not only eliminate concrete build up but also costly paint and corrosion repairs typically associated with the use of most phosphoric, citric and hydrochloric based cleaner. Use E-SAFE without fear of on the job injuries or long-term health issues. The use of E-SAFE presents no waste stream or air quality issues.

IT WORKS

WILL NOT ATTACK

**PAIN
ALUMINUM
METAL
CHROME
RUBBER
COMPOSITE PARTS**

HANDLING

ENVIRONMENTALLY SAFE

Non-flammable
VOC exempt
Biodegradable
Solvent free

EMPLOYEE SAFE

Non-corrosive to human tissue.
(Rabbit skin test available)
No overpowering vapors
Protective equipment - safety glasses and gloves

EQUIPMENT SAFE

Non-corrosive to metal
(Test data available)
Passed the six month corrosion testing on aluminum
